

We are all #ForeverFoxes. As we all do our part to address the global health concern, here is an activity that allows you to be creative and show your school pride!

THE TASK: Create your own fox (paper, digital, or 3D) in a square no smaller than 3" x 3". For those who may be looking for a guide, attached is a simple 6" x 6" frame on a standard size sheet of paper that you can download.

Once you have created your fox, [submit using this form](#). Please be sure that you check the box if you would like your name shared with your fox.
